

FOR SUPERIOR NON-DAIRY MILK FORTIFICATION

Aquamin AG is derived from a combination of Lithothamnion sp. of red seaweed and natural gum. It provides a rich source of sustainable plant calcium, magnesium as well as 72 additional trace minerals for enhanced enrichment properties.

Aquamin AG is Marigot's latest product offering and is optimized for use in plant based beverages providing improved dispersion and suspension properties.

Developed exclusively for non-dairy beverage fortification - Aquamin AG is ideal for:

- Natural, plant based beverages
- Suitable for use in organic products
- Lactose-free
- Vegan
- Allergen-free
- Clean tasting - Non-astringent
